

MatchWork has a stable and growing business in the countries where we operate today - Scandinavia, UK and Germany. Further expansion in new countries will be based on our reseller model.

This summer MatchWork and the Dutch based itsyourday agreed to leverage the potential for Job Boards in The Netherlands together. The newspaper industry, online providers and recruiters are the main target groups.

“It’s a pleasure to welcome itsyourday as our reseller in The Netherlands. With the background and current business of itsyourday, we are confident of our future business in The Netherlands. We are looking forward to exploiting the potential in the Dutch market together”, says VP Sales & Marketing, Michael Spenner.

With a proclaimed track record in the recruitment business, itsyourday were convinced that the perfect job board did not exist. That is, until they came across MatchWork.

“The ultimate solution for recruiters and all other parties that are, to a great extent, dependent on an accurate and easy to operate job board. In fact, we have been so enthusiastic about the product that since mid 2010 itsyourday is the official reseller for MatchWork software in The Netherlands”, says Rupert Moore, CEO itsyourday.
